- Business Analysis
- Technical Analysis
- 2-week boot camp for all new employees

SMART DATA SOLUTIONS OUR PARTNERSHIP WITH 3SAGE.

ThreeBridge is proud to announce the acquisition of 3sage Consulting, an Atlanta-based data and analytics consultancy, to expand our Smart Data practice. 3sage is a results-driven firm with key competencies in data strategy and governance, enterprise and master data management, advanced analytics, data sciences, AI, and machine learning. Their foundation in data strategy will help ThreeBridge develop new strategies across our core Solutions, and better combine our Talent, Training, and Advice.

Legacy 3sage Consulting services are now a part of the ThreeBridge Smart Data solution. Together, we help our clients manage data as an asset and make more effective strategic business decisions.

CUSTOM SOLUTIONS Unlike other firms, we don't use pre-configured business or IT solutions. We work closely with our clients to find the answers they need, and deliver only the results they want. Nothing more, and nothing less.

ALIGNMENT We optimize our solutions to align with business objectives, so our clients achieve measurable results. We build capabilities to sustain and continually improve on small and large investments by including Talent, Training, and Advice in every solution we deliver.

NATIONAL REACH We take pride in our local-first approach to consulting, and have national reach across 7 offices and 12 markets. We optimize our teams to provide the right blend of value and expertise for every engagement.
